Investment Advisor Brochure

Item 4- Advisory Business:

A) LPG offers investment supervisory services and financial planning services, where appropriate to individuals, high net worth individuals, trusts, estates, 401K's, charitable organizations, corporations or other business entities. LPG provides continuous advice to a client regarding investment of client's funds based on the individual needs of the client. LPG consults with the client to obtain detailed financial information and other pertinent data, including a personal financial statement or detailed listing of overall finances (subject to client openness), to enable the Investment Advisor to determine the appropriate investment guidelines. LPG uses risk tolerance and other factors to ascertain the suitability of investments in each client's account. Account supervision is guided by the stated objectives of the client (i.e., Preservation of Principal, Income, Income and Growth, Growth, and Speculation) as indicated in the Managed Investment Advisory Service Agreement which must be completed by the client.

B) LPG will create a portfolio which typically consists of one or all of the following: stocks, bonds, mutual funds, exchange traded funds (ETF's), variable annuities, fixed annuities, REITS, Limited Partnerships, Direct Participation Programs (DPPs), Business Development Corporations (BDCs); and other investment products. LPG will allocate client assets among various investments taking into consideration the overall management style or objective selected by the client. Portfolio weighting between funds and market sectors will be determined by each client's individual needs and circumstances. Clients will have the opportunity to place reasonable restrictions on the types of investments which will be made on the client's behalf. Therefore, performance of portfolios within the same investments objective may differ and clients should not expect the performance of their portfolios to be identical with other clients of LPG. Clients will retain individual ownership of all securities purchased in their accounts.

C) LPG also provides advice in the form of Financial Planning. Clients purchasing this service may receive a written report, providing a detailed financial plan designed to achieve his or her stated financial goals or objectives. In general, the financial plan will address areas of concern including, but not limited to, preparation of a Statement of Net Worth, capital needs analysis, cash flow planning, retirement planning and education planning. In order to facilitate a financial plan LPG gathers required information through in-depth personal interviews. Information gathered includes a client's current financial status, future goals and attitudes toward risk. Related documents supplied by the client are carefully reviewed, including a questionnaire completed by the client, and then a written report is prepared. Financial recommendations are not limited to any specific product or service offered by a particular broker-dealer or insurance company. All recommendations are generic in nature. Whenever possible, and if the client wishes, LPG would be available to assist in the implementation of the financial plan. Once the financial plan is presented to the client, implementation of the financial plan recommendations is entirely at the client's discretion. LPG will also assist clients with financial decisions and make recommendations that align with their stated objectives.

D) As of December 31, 2016 assets under management are \$72,000,000 of which none are non-discretionary.

Item 5- Fees and Compensation:

A) The annual fee for LPG's Investment Supervisory Services will be charged as a percentage of assets under management (hereafter "AUM") along with an annual account fee

Investment Advisor Brochure

of \$50 per annum. This account fee may be waived solely at the discretion of LPG. The following schedule identifies the AUM fees that may be charged by LPG:

<i>Account Size</i>	<i>Quarterly</i>	<i>Annual</i>
< \$100,000	0.6250%	* 2.50%
\$100,001 to \$250,000	0.5000%	2.00%
\$250,001 to \$500,000	0.4375%	1.75%
\$500,001 & \$1,000,000	0.3750%	1.50%
\$1,000,001 & above	0.3125%	1.25%

* Fees above 2% may be considered excessive. The same or similar services may be obtained in the market place for a lower fee. Smaller accounts managed by LPG, with the above listed AUM fee schedule, may find their performance negatively impacted by the higher fees charged, therefore, these clients should consider all other options for investing, prior to establishing a managed account with LPG.

Clients may be charged additional administrative, brokerage, clearing and transactional fees by the custodian firm.

B) Management fees are negotiable depending on the types of investments and degree of involvement required for each client's circumstances. LPG will quote an exact percentage to the client, based on both the nature and total dollar value of that account. LPG may group certain related client accounts for the purpose of determining the AUM fee. Friends, family, LPG's IARs, and certain charitable organizations may be given a discounted AUM fee, at the sole discretion of LPG. In addition, from time

to time clients may request LPG's IARs to transfer and/or manage investments purchased through or held at other institutions or firms. Those purchases or investments may have cost the client a sales load or charge. Fees will be directly debited from client accounts in arrears, at the beginning of each quarter, based upon the value (market value or fair market value in the absence of market value) of the client's account at the end of the previous quarter. In the event the custodian will not allow such direct compensation, LPG will directly invoice the client, in arrears, at the beginning of each quarter based upon the value (market value or fair market value in the absence of market value) of the client's account at the end of the previous quarter. Clients may also verbally elect to have AUM fees for multiple accounts deducted from one primary account, to avoid having some fees deducted and some fees directly invoiced. However, fees directly billed will be due and payable upon receipt of the billing invoice. Clients who terminate their advisory account agreement will be responsible for AUM fees earned up to the date of termination.

Management fees on certain variable annuity contracts may impact their annuity benefits.

C) LPG charges a non-negotiable financial planning fee of \$150 per hour or clients may elect the AUM schedule. An estimated fee will be provided at the inception of the advisory relationship, based on the estimated hours for completion. In the alternative, a fixed fee amount may be negotiated for the completion of the entire financial plan based on the scope of the financial plan being requested by the client. All fees are due and payable upon completion and delivery of the financial plan. Financial Planning fees may be offset against the management fee of any LPG account client.

Investment Advisor Brochure

Item 6- Performance-Based Fees and Side-By-Side Management:

LPG does not charge any performance-based fees (fees based on a share of capital gains on or capital appreciation of the assets of a client). Therefore this section does not apply.

Item 7- Types of Clients:

LPG provides portfolio management and advisory services primarily to individuals, but may also serve small businesses, 401K's, pensions, trusts, charitable organizations, and corporations. LPG does not have a required minimum account size, however smaller accounts managed by LPG may find their performance negatively impacted by the higher fees charged. Therefore, these clients should consider all other options for investing, prior to establishing a managed account with LPG.

Item 8- Methods of Analysis, Investment Strategies and Risk of Loss:

A) Legacy Planning Group, Inc. uses a combination of technical and fundamental methods to assess risks and opportunities in capital markets. Fundamental data helps us identify industries and sectors with compelling financial characteristics. Technical data helps us identify securities with attractive supply-demand characteristics. We apply technical and fundamental economic and stock analysis to determine appropriate investments and timing of buys and sells. Our investment strategies may use index-related funds,

closed-end funds, and ETFs to profit from the market's intermediate trend. We determine the trend based on one or more market signals.

We may also include mutual funds and income-generating investments to balance and diversify the portfolios, and/or to respond to specific client objectives. We choose mutual funds based on investment style, long-term fund performance, reasonableness of cost, and a fund's history of respect for the needs of individual investors, including their fiduciary record.

B) Our investment strategies attempt to profit from the stock market's overall trends. We are seeking the intermediate trend, a trend that lasts 3 months on average. However, we may also seek to profit from shorter or longer-term market trends. On occasion, we will hold securities such that we generate short-term gains or losses. We are not typically driven by a 'tax-advantaged' strategy, which means our focus is not on achieving tax-favored long-term gains. When the market is determined to be in an 'up' trend, we focus on equity ETFs and mutual funds. When we determine the market to be in a 'down' trend, we typically move to cash/bonds and/or other conservative investments with all or a portion of the assets. We may use 'enhanced' ETF's or mutual funds to attempt to improve returns or hedge against risk. While we work to place trades in a timely manner, not all accounts may be traded on a given market signal day.

C) We select funds that already outperform the broader market while they are still accelerating in performance, relative to other industry and international sectors, early in their cyclical up-trends. On longer-term market downtrends (e.g. those of more than one quarter) our models will begin building positions in defensive sectors that are showing strong relative performance. Historically defensive sectors have typically been bonds, utilities, real estate, healthcare, and precious metals (i.e. gold).

Investment Advisor Brochure

D) Our investment strategy considers the universe of stock market, real estate, fixed income, mutual funds and ETFs that are available with the corresponding custodian, then builds a portfolio focusing on the best-performing assets classes over time. Our models rotate from the weaker asset classes to those that are gaining strength.

Also, our strategy adjusts asset allocation in recognition of market conditions. When the stock market is healthy and strong, we usually fully invest in the top-performing areas of the equity markets. When the stock market is uncertain and weak, we may shift more to cash and fixed income, even taking a short equity position if an opportunity presents itself in the market place. In some instances, depending on the investment vehicle and custodial firm, margin may be required to initiate a short position. We do not typically use bank CDs, municipal securities, individual corporate bonds, commodities-based contracts, or currency-based contracts in our investment strategies. However, we may use ETFs which own these investment vehicles.

E) LPG utilizes various investment monitoring and web-based reporting services. These are not limited to specialized investment letters, research or on-line portfolio monitoring. LPG may also use web-based programs such as Morningstar, Forefield, Redtail, Wealth-Lab, StockCharts.com, and Investigo. Our investing information may come from one or more market signal services. Additionally, we may use information from any number of national, economic and financial publications or websites; including but not limited to The Wall Street Journal, Barron's, Yahoo Finance, and Investor's Business Daily. While LPG strives to achieve success with its investment models, investing in securities involves risk of loss that clients should be prepared to bear.

Item 9- Disciplinary Information:

Registered investment advisors are required to disclose all material facts regarding any legal or disciplinary events that would be relevant to your evaluation of LPG.

Further details regarding LPG and its Registered Investment Advisor Representatives disciplinary history can be found on FINRA's BrokerCheck (www.finra.org/brokercheck) or the IAPD (www.adviserinfo.sec.gov) web sites. The information available on these web sites include representative employment history, registration and licensing information, and disciplinary history.

Item 10- Other Financial Industry Activities and Affiliations:

A) LPG is a State-Registered Investment Advisor as well as an Independent Insurance Agency.

B) The IARs, principal executive officers and other employees may be separately licensed as registered representatives of: H. Beck, Inc., a FINRA registered broker dealer, and/or Lone Peak Capital Management LLC, ("LPCM") a State-Registered Investment Advisor.

As of the date of this brochure, LPG temporarily shares common space, phone number and e-mail domain with LPCM an affiliated registered investment adviser. While affiliated entities, LPCM and LPG are completely independent and do not refer clients and or services to one another.

It is the policy of LPCM that no client of LPCM may be a client of LPG and vice versa.

H. Beck, Inc. will retain a portion of the investment advisory fees received by LPG as a charge to the investment advisor (not the client) for the supervisory functions H. Beck, Inc. is required to carry out by FINRA. This fee will not increase either execution or brokerage charges to the client, nor will it increase the fee the client has agreed to pay to LPG, pursuant to the client's Managed Investment Advisory Service Agreement. The advisory services offered by LPG are entirely separate and distinct from the supervisory services

Investment Advisor Brochure

performed by H. Beck, Inc.

While the IARs of LPG endeavor at all times to put the interest of the clients first, as part of LPG's fiduciary duty, clients should be aware that the receipt of additional compensation may create the potential for a conflict of interest; however, LPG through its supervisory process, will make every effort to prevent this from affecting the judgment of these individuals when making recommendations.

Associated Persons of LPG may also be insurance agents or brokers for one or more insurance companies. They may act under an agency agreement or as an independent insurance agent. These activities include the sales and service of insurance products (i.e. Health and Life) and are considered outside business activities. LPG Associated persons spend less than 20% of their time doing such business.

Associated Persons of LPG may also be Licensed Mortgage Originators. They assist clients with mortgage products and receive compensation for doing so. This is considered an outside business activity and takes less than 5% of their time doing such business. Currently, mortgage services are conducted under Laser Lending, LLC.

Clients are not under any obligation to engage LPG's Investment Advisor Representatives (IARs) when considering implementation of advisory recommendations. The implementation, of any or all recommendations, is solely at the discretion of the client.

C) While the IARs of LPG endeavor at all times to put the interest of the clients first, as part of LPG's fiduciary duty, clients should be aware that the receipt of additional compensation may create the potential for a conflict of interest; however, LPG through its supervisory process, will make every effort to prevent this from affecting the judgment of

these individuals when making recommendations.

Item 11- Code of Ethics, Participation or Interest in Client Transactions and Personal Trading:

A) Due to the conflicts of interest inherent in the securities industry, LPG has adopted a Code of Ethics expressing the firm's commitment to ethical conduct. LPG's Code of Ethics describes the firm's fiduciary duties and responsibilities to clients, and sets forth LPG's practice of supervising the personal securities transactions of supervised persons with access to client information.

IARs of LPG may have an interest in Client transactions insofar as they may personally invest in the same securities recommended to Advisory Clients. These transactions involve a conflict of interest as LPG or IARs may benefit from an increase in price from subsequent purchases by Advisory Clients. To address this conflict of interest, LPG and its IARs will adhere to the following procedures regarding their personal trading:

- (1) Client transactions will always be placed ahead of those for LPG, its management, and its IARs;
- (2) LPG and its IARs will mostly recommend investments that are widely traded;
- (3) In the rare instance where private placement offerings are recommended to Clients and an IAR also has an ownership interest in the private offering, full disclosure will be given so the Client fully understands that conflict of interest; and
- (4) Neither Advisory Clients nor IARs will have enough funds invested in any given security to move the market in that particular security.

Investment Advisor Brochure

B) Compliance supervision of LPG's Code of Ethics, requires that anyone associated with this advisory practice, with access to advisory recommendations, provide statements of all personal investment accounts and any accounts in which they have a financial interest, including accounts for immediate family and/or household members. All personal securities transactions are included except: bank certificates of deposit, commercial paper, money markets, direct obligations of the United States, bankers acceptance notes, or shares issued by registered open-end investment companies.

LPG requires that each affiliated individual must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices. LPG will provide a complete copy of its Code of Ethics to any client upon request to LPG's Compliance Officer-Michael Owen.

Item 12 - Brokerage Practices

A) LPG Investment Supervisory Service brokerage accounts are primarily held by Pershing LLC. as the custodian. Most variable annuity contracts managed by LPG and/or its IARs are held directly with the insurance company, with H. Beck, Inc. as the broker-dealer. Fixed annuity contracts generally will have an IAR as the agent of record on the contract. LPG has endeavored to select a broker-dealer and clearing firm which will provide excellent service for a reasonable and fair fee. The reasonableness of such fees is based on the broker's ability to provide professional services, research and other services which will help LPG's IARs provide investment management services to clients. LPG's IARs use a broker-dealer who provides useful research and securities transaction services, even though a lower fee arrangement may be available by a broker-dealer who may offer no research services and minimal securities transaction assistance. Research services may be useful in servicing most of our clients; however, not all research may be useful for every account. Per

the disclosure above, the principal executive officers and other employees of LPG are separately licensed as registered representatives of H. Beck, Inc., a FINRA registered broker-dealer. Therefore a conflict of interest exists.

B) LPG will primarily rely on Pershing LLC for the execution of brokerage transactions and will usually not direct trades to specific brokers. LPG may however utilize other custodians to execute brokerage transactions. As such, Clients may not receive the lowest price possible if they were to have their trades directed to specific brokers. LPG may make the same recommendations for similarly-situated Clients, and will attempt to aggregate Clients' orders to obtain favorable executions.

C) The principal executive officers and other employees of LPG may, from time to time, receive 12b-1 distribution fees and sales loads from investment companies in connection with the placement of client funds into mutual funds. While these individuals endeavor at all times to put the interest of the clients first as part of LPG's fiduciary duty, clients should be aware that the receipt of additional compensation itself creates a conflict of interest, and may affect the judgment of these individuals when making recommendations to clients.

D) LPG's IARs may be licensed as registered representatives with H. Beck, Inc. Pershing LLC, makes available to LPG, through H. Beck, Inc., products and services that benefit LPG which may not necessarily directly benefit its clients. Some of these products and services do assist LPG in managing and administering client's accounts. These include software and other technologies that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information

Investment Advisor Brochure

and other market data, facilitate payment of LPG's fees from its clients' accounts, and assist with back-office functions, recordkeeping and client reporting. Many of these services are used to service a substantial number of LPG's accounts. However, while the IARs of LPG endeavor at all times to put the interest of the clients first, as part of LPG's fiduciary duty, clients should be aware that these additional services create a conflict of interest, and may affect the judgment of these individuals when making recommendations.

E) LPG may also receive non-cash consideration from investment companies, insurance companies and other investment product companies. Such benefits may include a higher level of service from these organizations, industry reports, economic forecasts that can be used in the management of client accounts, gifts or meals, and entertainment of a reasonable amount. Some investment companies or insurance companies may provide marketing support to LPG and/or IARs, which may be either monetary or non-monetary in value. While the IARs of LPG endeavor at all times to put the interest of the clients first, as part of LPG's fiduciary duty, clients should be aware that the receipt of additional support and assistance itself creates a conflict of interest, and may affect the judgment of these individuals when making recommendations.

Item 13 - Review of Accounts

A) Initially, upon opening an account, each client's investment objective, income, age, employment status, occupation, financial resources, level of sophistication and knowledge about securities markets are obtained and reviewed by LPG's Compliance Officer. We may also utilize Riskalyze to help assess risk tolerance. While the underlying securities within investment accounts are continually monitored, these accounts are also reviewed at least annually to ensure consistency with clients' stated financial objectives. Financial planning clients will

be reviewed as contracted for at the inception of the advisory relationship.

B) Account reviews can also be triggered by client questions, major life events or changes, or significant changes in account balance, such as new deposits or withdrawals.

C) Investment advisory clients will receive periodic account statements, confirmations, and other details inserted/mailed from the broker-dealer/custodian (physically or electronically). LPG may also provide account reports as contracted for at the inception of the advisory relationship. Such reports may include the amount of fee, the value of the client's assets upon which the fee was based, and the manner in which the fee was calculated. LPG urges clients to carefully review such statements and compare such official custodial records to the account statements that LPG may provide. LPG statements may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities. Also, LPG may generate reports through various third-party software providers such as Morningstar, Wealth-Lab, Forefield, Redtail, Investigo, Riskalyze, etc.

Item 14 - Client Referrals and Other Compensation

A) LPG does not have any client referral arrangements. We do not pay any outside solicitor fees to refer investors to the firm. However, principal officers and other employees of LPG may be separately licensed as registered representatives of H. Beck, Inc., a FINRA registered broker dealer. Associated persons of LPG may also be insurance agents or brokers for one or more insurance companies. As such, these individuals, in their separate capacities as registered representatives and/or insurance agents or brokers, will be able to effect securities transactions or other investment products (i.e. insurance) for clients, for which they may receive separate compensation.

Investment Advisor Brochure

B) As noted above, clients should be aware that the receipt of additional compensation from the outside business activities of LPG IARS may create the potential for a conflict of interest; however, LPG through its supervisory process, will make every effort to prevent this from affecting the judgment of these individuals when making recommendations.

Item 15 - Custody

LPG is considered to have custody of client funds or securities due to the direct withdrawal of its advisory fees, but does not retain physical custody of any client securities or assets. Clients should receive statements, at least quarterly, from the custodian that holds and maintains client's investment assets. LPG urges you to carefully review such statements and compare such official custodial records to the account performance statements that we may provide to you. Our statements may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16 - Investment Discretion

A) LPG usually receives discretionary authority from the client at the outset of an advisory relationship via the Managed Account and Service Agreement. This agreement allows LPG to select the identity, timing, and amount of securities to be bought or sold. The agreement explains the limitations of the authority and defines the parameters surrounding the investment selection. Clients will select a risk profile and indicate an investment strategy. However, such discretion is to be exercised in a manner consistent with the stated investment objectives for the particular client account.

When selecting securities and determining amounts, LPG observes the investment policies, limitations and restrictions of the clients for which it advises. When trading registered investment companies, LPG's authority to trade securities may also be limited by certain federal securities and tax laws that require diversification of investments and

favor the holding of investments once made. Investment guidelines and or restrictions should be provided to LPG in writing.

B) Though every client's portfolio is unique, many of our clients utilize one or more of our investment strategies. Some of these transactions are driven by changes in a given signal or market trend, we recognize the necessity to act quickly and accurately to make appropriate portfolio changes consistent with the new signal or trend. Upon change in a signal, we make every effort to insure that all clients get the best possible price by bunching together similar orders in an effort to achieve price consistency across accounts.

Item 17 - Voting Client Securities

As a matter of firm policy and practice, LPG does not have any authority to and does not vote proxies on behalf of advisory clients. Clients retain the responsibility for receiving and voting proxies for any and all securities maintained in client portfolios. LPG may however provide advice to clients regarding the clients' voting of proxies.

Item 18 - Financial Information

LPG is not required to file a balance sheet for purposes of this document. LPG does not have physical custody of client assets, nor does LPG require prepayment of more than \$1,200 in fees 6 or more months in advance. LPG has not been the subject of a bankruptcy petition at any time during the past ten years.

Item 19 – Requirements for State-Registered Advisors

A) LPG has three executive partners: Travis Hudak, Michael Child, and David Wm. James. Their biographical information is given on the attached *BROCHURE SUPPLEMENT* document.

B) Items 10 and 14 of this *FIRM BROCHURE*, explain that LPG IARs may also be licensed as insurance agents and/or mortgage originators and may receive commissions for the sale of these products. These activities and conflicts of interest associated with them are discussed at greater length

Investment Advisor Brochure

in Item 10 of this *FIRM BROCHURE*.

C) LPG would be required to disclose additional information if it: were to charge performance-based fees; had any other relationship or arrangement with any issuer of securities; or was ever found liable in either: (a) an arbitration, or (b) a civil, self-regulatory organization, or administrative proceeding.

Details regarding LPG and its Registered Investment Advisor Representatives disciplinary history can be found on FINRA's BrokerCheck (www.finra.org/brokercheck) or the IAPD (www.adviserinfo.sec.gov) web sites. The information available on these web sites include representative employment history, registration and licensing information, and disciplinary history.
